

24 May 2018

Dear neighbour,

### **National Grid power line refurbishment – road closure information**

We'd like to provide you with details about a road closure that will take place close to your address.

We need to close certain roads and footpaths so that we can refurbish the power line between Walham and Cilfynydd. We need to access the pylon sites with equipment to install new wire along the overhead lines and maintain a safe area for both our workforce and the public.

The closure most likely to affect you is along Tram Road Side, Abercynon. A section of this road will be closed between the end of May and the end of July. If we finish our work ahead of schedule and it is safe to do so, we'll open the road earlier. **A planned diversion route is on the back of this letter.**

As part of this work, we will also need to close some sections of nearby public right of way routes. Please refer to signage for information.

In advance of the road closure, we'll put up signage with a reminder of the dates and the diversion. Emergency vehicles will still be allowed access along this route.

If you have any questions, please contact our Community Relations Team on 0800 073 1047. The helpline is available between 7am – 7pm Monday to Sunday.

We'd like to thank you for your patience as we carry out this work. To view a map of all the road closures and diversions, please visit [www.nationalgrid.com/cilfynydd](http://www.nationalgrid.com/cilfynydd). We'll update the map as work progresses.

Yours faithfully

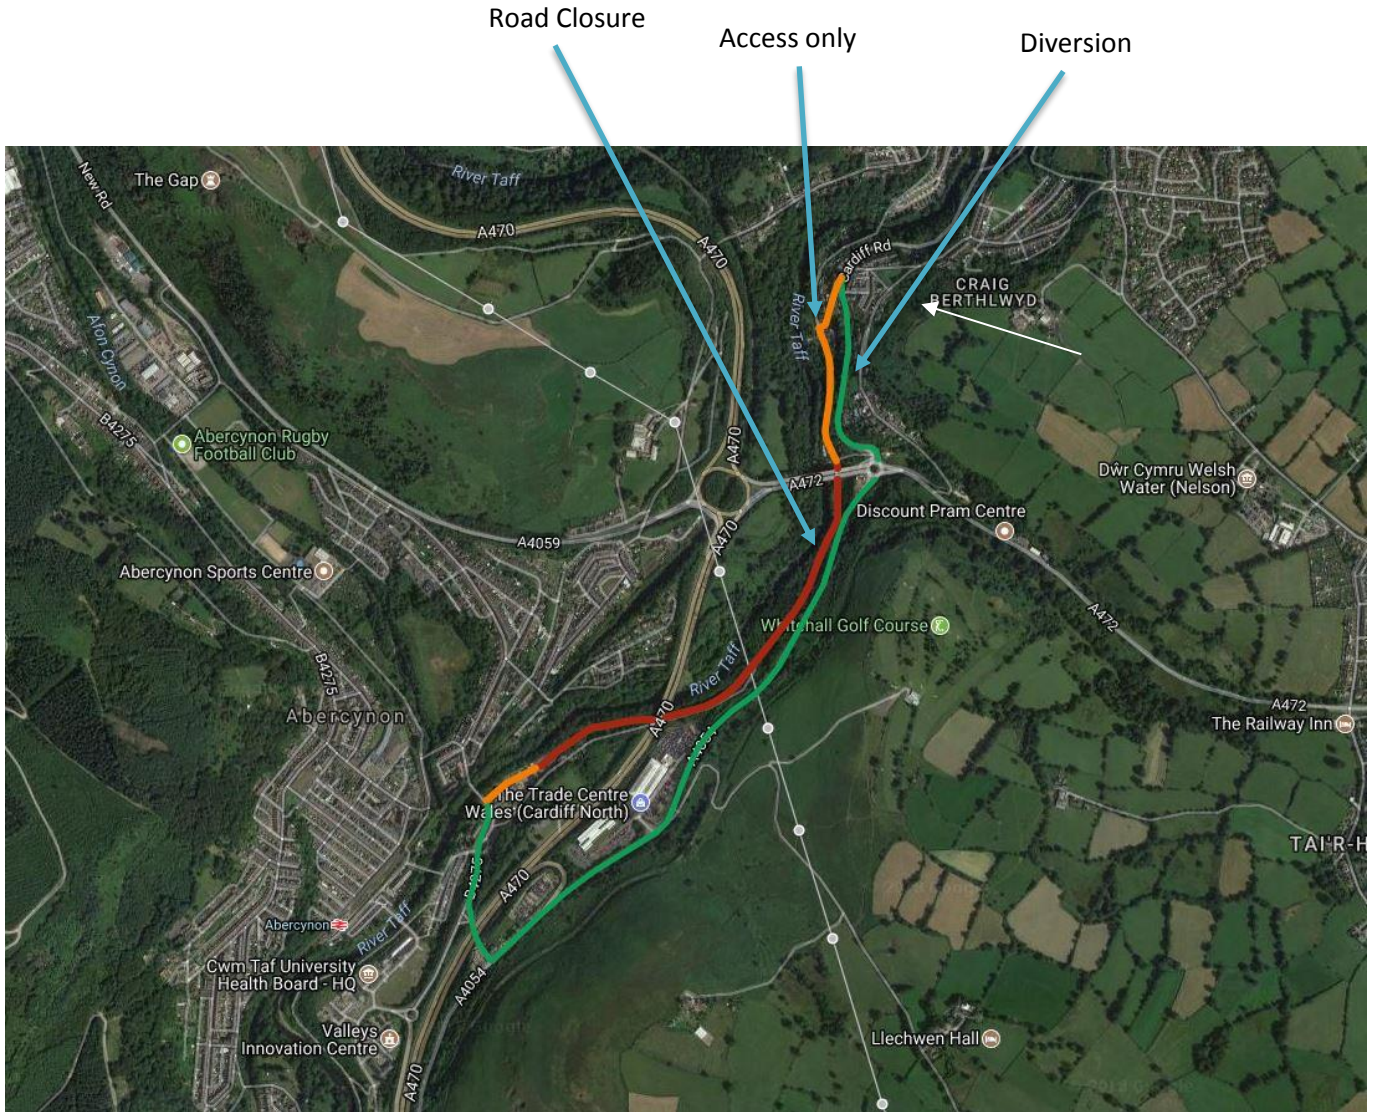

Simon Chandler
